

Voice of the community

Benefits and Issues

"Project is win-win for the environment and the community."

- Environmental group member, Burpengary

"Limitations only from within, we can make this what we want. The future of the shire depends on growth of business and residential. Need to keep moving forward and attracting business to our shire."

-Caboolture local business

"All traffic to industry boats, golf course to go down Buchanan's overpass. Buckley and Uhlmann Road is residential with kids, bike riders, walkers and local traffic."

-Buckley Road resident

"If I can get a cappuccino at 10 pm at a marina café I will be happy."

- Burpengary resident

"Proposed development is exactly what is required for the Caboolture area. Hopefully jobs for young people will eventuate, Good luck thank you for the community to have a say."

- Burpengary business

"Concerned as recreational fisherman that the development stage will upset the ecology and render the area crab and fishless."

- Burpengary resident

"Centralised business development and activity or residential/marina - all tremendous for Caboolture Shire. Please do not make it another Narangba!"

- Caboolture business & Burpengary resident
