CITY EAST Qld, 4002.

9<sup>th</sup> May 2008

Dear Sir,

**RE: Northeast Business Park**

As a local business owner and resident of Caboolture, for the past 30 years, I had the pleasure of being invited to view the project site of the above mentioned development.

I have always been keen on the project since it was first announce as I believe it will be a great development for the local area. After visiting the site, and talking to the project team, I am even more excited about the facilities which are planned.

It will not only provide an excellent opportunity for employment and lifestyle opportunities, but also provide another business area with close access to the Bruce Highway.

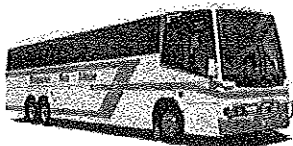

The proposed development will also provide an area in which the local residents, as well as visitors to the area, can meet for either social or recreational purposes, which will enhance the lifestyle opportunities for the local residents.

I fully support the project and look forward to the development commencing in the very near future.

Yours faithfully,

Daryl Webster

Managing Director.
