

Park invests in annual business awards

NORTHEAST Business Park, a state-of-the-art mixed industry and business area planned for just south of Caboolture, is investing in local business through its support of this year's Excellence in Business Awards.

Northeast Business Park will provide a future home for business through its 160 hectares dedicated to manufacturing, retailing warehouses and marine industry facilities.

NEBP CEO Jeff Smith said sponsoring the Excellence in Business Awards was a way of encouraging local business owners and continuing to build strong relationships.

"The Caboolture business community in particular has been extremely supportive of our project and this is a way of reciprocating,"

Mr Smith said. "Northeast Business Park will be a centre for successful business in the future and that means our success is tied to the strength of local businesses," he said.

"Our project is a visionary master planned community and will be a vibrant business and lifestyle destination creating employment opportunities for local workers." As well as those jobs created specifically for the industrial park, an additional 252 jobs external to the park will be generated.

The industrial park, which is already approved by Moreton Bay Regional Council will also generate \$2.81 for every dollar spent throughout the project.

A broader vision for North Har-

bour will be considered by the Planning and Environment Court after Moreton Bay Regional Council rejected a proposal to transform degraded former pine plantation and cane land into a \$628 million residential and business park precinct that includes a marina, golf course and conservation areas.

Mr Smith said despite that setback, plans for the business park were continuing.

"Northeast Business Park can bring great economic growth to the region with more than 15,000 new jobs in the next decade," he said.

"It can be a vibrant employment hub for the region, strengthening existing local industries while attracting new business, employment and prosperity."

FIRST ANNIVERSARY: LensPro opened its doors in Morayfield Shopping Centre a year ago.

First birthday for LensPro

LENSPRO Morayfield owners Justin and Alayna Gribbin had much to celebrate recently as it was a year since the local couple opened their store in the Morayfield Shopping Centre.

Last year, Justin and Alayna decided to launch their own store with a view to offering patients excellent service for their vision needs and being able to provide a one hour service for most glasses.

Justin also used this opportunity to change his appointment schedule, allowing him to spend more time with his patient con-

sultations, which is bulkbilled.

He has installed the latest diagnostic equipment, including retinal imaging, macula screening and visual field testing.

Justin and Alayna wanted to impress upon their patients the importance of checking the health of their eyes even if they do not wear glasses.

The Optical Dispensing staff are fully trained to assist with frame and lens choice, and can fit the lenses using the only optical lab at Morayfield Shopping Centre.

Because everything is done on-

site, patients can be confident that their prescription is correctly interpreted and that the best lenses and frames will be used for optical vision and comfort.

Justin has been an optometrist in the Morayfield area since 1996 and brings a great personal touch to his business.

Justin and Alayna pride themselves on the variety of spectacles on display. Each style is carefully selected by Alayna and constantly updated to reflect the current trends in eyewear. LensPro is situated near Target opposite the newsagency.
